Spoke with Steve Way regarding the suggestion. He wants to consider it and we'll discuss further later today.

Please see the following suggestion from PIO. I think we discussed this yesterday. I agree with the recommendation to provide an additional layer of security to prevent visitors access to our command post. and impact ongoing site work. What are your thoughts?

We are recommending an additional security point in advance of the EPA command post at the site. Is there a process to put this in place? Thanks ng
